STAFF REPORT

To: Members of the Historic Preservation Commission
From: Lyle McCaskey, Assistant City Planner (662-323-2525 ext. 3130)
Subject: Presentation by the Utilities Department for the placement of 2 vehicle fast charging stations provided through a grant by the Tennessee Valley Authority and the Mississippi Department of Environmental Quality.
Date: February 14, 2023

The purpose of this report is to present information on the location of a proposed fast charging station.

Starkville Utilities was awarded a TVA grant to install 2 fast-charging electric vehicle stations. The TVA grant covers 80% of the cost and the State of Mississippi through MDEQ is covering the remaining 20%. After reviewing several locations, it was determined the best location for these chargers would be at the Lampkin Street public parking lot. Power was available and some of the parking spaces could be reconfigured to accommodate the charging stations.

As part of the project, an environmental review is completed for each site that will ensure that no environmental impacts are being created by this project. Since this proposed site falls within the Historic downtown district, TVA has requested that this be presented to the Historic Preservation Commission and a letter from the Commission, if approved, be included in the environmental document.

See below some additional, past news articles related to this project. Note the location in the January 24, 2022 article refers to the previous location.
